

# STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM

The logo is circular with "IDAHO" at the top and "TRANSPORTATION DEPARTMENT" around the bottom. In the center is a stylized "T" shape with a road line through it.

## Public Review Draft

The Idaho Transportation Board is currently seeking comments from the public; federal, state, and local governmental entities; and Indian Nations about the draft FY 2005 – 2009 Statewide Transportation Improvement Program (STIP). If you have project-related questions, contact information for each ITD district is listed throughout the document.

The STIP is based on reasonable projections of future funding expectations. Prior to final approval, all projects in air quality nonattainment and maintenance areas will need to meet all applicable air quality conformity requirements, including those relevant to specific pollutants and implementation plans.

Project lists are divided first by the Idaho Transportation Department district location and second by urbanized areas (urban areas with a 50,000+ population) that are within each district. Project locations are identified on the maps. Each district and urbanized area has two sections, each with project lists and a map. The first section contains proposed projects that have been either “Recommended for Inclusion” or “Nominated but not Funded” in the FY 2005 – 2009 program. Please review these projects closely and provide input to the Idaho Transportation Board. The second section contains information on existing projects remaining from previous board-approved programs.

Included within each district and urbanized area section is a blue comment sheet. Your comments will be considered in drafting the final version of the program. You may return your comments by August 4 in person or via mail, fax, or e-mail. The Idaho Transportation Board is scheduled to approve the final version of the program during their September meeting in Pocatello. You can also review, download, or submit comments on the draft STIP at:

**[www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm)**

Please take this opportunity to become involved in planning Idaho’s five-year statewide transportation program. Your review, comments, and involvement are appreciated.

# Transportation Funding Overview

## Federal-aid Funds

*Please Note: The following programs, eligibility requirements, and the funds distributed between them reflect the programs established via the Transportation Equity Act for the 21<sup>st</sup> Century (TEA-21) which was passed in 1998 and expired September 30, 2003. These programs, eligibility requirements, and the funds distributed between them may change when a new transportation act is passed. Reauthorization had not yet occurred at the time of this writing, June 25, 2004.*

Federal funds administered by the Idaho Transportation Department are received from the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the Federal Aviation Administration (FAA), and the National Highway Traffic Safety Administration (NHTSA). Federal-aid projects generally require state or local matching funds of approximately 7-20%. Additional information can be found at the Federal Highway Administration's web site [www.fhwa.dot.gov/tea21/factsheets/index.htm](http://www.fhwa.dot.gov/tea21/factsheets/index.htm) or [www.fhwa.dot.gov/programadmin/covert21.htm](http://www.fhwa.dot.gov/programadmin/covert21.htm).

### FEDERAL HIGHWAY ADMINISTRATION FUNDS

**Bridge State, Local, and Off-System** funds are for the replacement or rehabilitation of bridges at least 20-feet long and have a qualifying "sufficiency rating," generally 50 or lower. The Idaho Transportation Board makes thirty-five percent of the Bridge funds available for use on non-State Highway System bridges.

**Congestion Mitigation and Air Quality Improvement (CMAQ)** funds are for transportation programs and projects that will contribute to the attainment of a National Ambient Air Quality Standard. The primary purpose of Idaho's CMAQ Program is to fund projects, planning, and programs in air quality non-attainment and maintenance areas, as well as areas of concern for ozone ( $O_3$ ), carbon monoxide (CO), and particulate matter (PM) which reduce transportation-related emissions. Geographic areas of concern will be identified in cooperation with the Idaho Division of Environmental Quality (IDEQ) as having identified air quality problems or the potential for air quality problems.

**Forest Highway** funds are administered by the Western Federal Lands Highways Division (WFLHD). They are for improvements on any federal, state, or local roadway designated as a forest highway and serving a national forest. Projects are selected jointly by the ITD, WFLHD, and U.S. Forest Service.

**Indian Reservation Roads** funds are administered by the Bureau of Indian Affairs. They are for the maintenance, rehabilitation, or reconstruction of reservation roads and bridges.

**Interstate Maintenance** funds are for resurfacing, restoring, rehabilitating, or reconstructing the Interstate highway system. Adding capacity to the existing system may not be funded under this program except for high-occupancy vehicle lanes or auxiliary lanes such as truck-climbing lanes.

**Metropolitan Planning** funds are allocated to the state and distributed to metropolitan planning organizations for transportation planning.

**National Highway System** funds are for the reconstruction or rehabilitation of roadways on the congressionally designated National Highway System (NHS). In Idaho the federally approved NHS includes the Interstates, selected U.S and state highways, and local roads that provide designated intermodal connectivity.

**Recreational Trails** funds are administered by the Idaho Department of Parks and Recreation. They are for the development and maintenance of motorized and nonmotorized recreational trails.

**State Planning and Research** funds are allocated to the state and used to perform statewide transportation planning.

**Surface Transportation Program (STP)—Enhancement** funds are available to fund eligible enhancement activities under Idaho's three primary category of "enhancement" projects—(1) bicycle and pedestrian, (2) historic, and (3) scenic and environmental. Projects must be related to the surface transportation system.

**Surface Transportation Program (STP)—Hazard Elimination / Rail Safety** funds are for: safety projects to reduce accidents at identified hazardous locations; bicycle and pedestrian safety improvements, including on-road facilities, public trails, and traffic calming activities; projects that improve motorist protection at railroad crossings, and; elimination of roadway hazards. These funds are available for any state or local public road. Projects are selected for funding based upon a safety benefit—cost ratio or by statewide railroad priority ranking.

**Surface Transportation Program (STP)—Local Rural** funds are for projects in rural areas, and in cities with populations below 5,000. They are primarily used for reconstruction or rehabilitation of roadways functionally classified as rural major collectors or higher. These funds may also be used for planning, enhancement, transit, bridge, or safety activities. The Local Highway Technical Assistance Council (LHTAC) assists ITD in the administration of this federal program.

**Surface Transportation Program (STP)—Local Urban** funds are for projects in urban areas between 5,000 and 200,000 population. They are primarily used for reconstruction or rehabilitation of roadways functionally classified with FHWA as urban collectors or higher. These funds may also be used for planning, enhancement, transit, bridge, or safety activities. The Local Highway Technical Assistance Council (LHTAC) and Idaho's metropolitan planning organizations assist ITD in the administration of this federal program.

**Surface Transportation Program (STP)—Transportation Management Area (TMA)** funds are for state and local projects in urban areas of 200,000 or greater population. They are primarily used for reconstruction or rehabilitation of roadways functionally classified with FHWA as urban collectors or higher. These funds may also be used for planning, enhancement, transit, bridge, or safety activities. Administration is accomplished through a partnership between ITD and the metropolitan planning organization within the TMA.

**Surface Transportation Program (STP)**—State funds primarily provide funding for reconstruction or rehabilitation of roadways on the State Highway System (Interstate, U.S., and State routes). These funds may also be used for planning, enhancement, transit, bridge, or safety activities.

**Surface Transportation Research Program** funds are used to support research, technology development, and technology transfer.

## **DISCRETIONARY FEDERAL-AID FUNDS — Awarded by the U.S Department of Transportation or Congress**

**Borders and Corridors** funds are for planning, constructing, or operating projects in international border states and nationally recognized high-priority corridors.

**Bridge Discretionary** funds are for the replacement or rehabilitation of bridges located on federal-aid highways. Projects must exceed \$10 million.

**Demonstration (ISTEA) or High Priority (TEA-21)** funds are for U.S. Congress-designated projects. These funds cannot be used for any other purpose without congressional action.

**Interstate Maintenance Discretionary** funds are for resurfacing, restoring, rehabilitating and reconstructing (including adding lanes) on the Interstate highway system. Projects must be more than \$10 million and on a high-volume urban route or a rural route with high truck volume.

**Public Lands Highways** funds are available for any kind of transportation project eligible for assistance under Title 23, United States Code that is within, adjacent to, or provides access to public lands. These highways may be under federal, state, or local jurisdiction.

**Scenic Byways** funds are for highways that have been designated as a national or state scenic, historic, or back-county byway.

## **NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION (NHTSA)**

**NHTSA** highway safety grant funds are administered by the ITD Office of Highway Safety and the Idaho Traffic Safety Commission to fund statewide and local safety projects that address Idaho's eight most critical traffic-safety problems.

## **FEDERAL TRANSIT ADMINISTRATION FUNDS**

**Discretionary Capital Program** (49 U.S.C. 5309) funds are allocated directly by Congress to state and local public agencies for eligible transit capital projects.

**Elderly and Persons with Disabilities Program** (49 U.S.C. 5310) funds are allocated to the state and distributed based on elderly and persons with disabilities in the state. Funds may be used only for capital purchases or to purchase services that directly benefit the elderly or persons with disabilities.

**Intercity Bus Service** (49 U.S.C. 5311(f)) funds are allocated to the state, to be used to provide fixed-route connections with a larger regional or national system of intercity bus service. Funds may be used for administration, operations, planning, and capital costs to provide links between rural areas and regional centers.

**Job Access and Reverse Commute Program** funds were authorized in TEA-21 (1998) to provide transportation in partnership with the welfare-to-work initiatives around the country.

**Metropolitan Planning** (49 U.S.C. 5303) funds are allocated to the state and distributed to the metropolitan planning organizations for transit planning. FTA funds are combined with FHWA funds in a Consolidated Planning Grant to develop multimodal transportation plans for the urbanized area.

**Rural Area Formula Program** (49 U.S.C. 5311) funds are allocated to the state and distributed to meet the needs identified in small cities (pop. under 50,000) and rural areas. Funds may be used for administration, operations, capital and planning costs associated with providing services to the general public.

**Rural Transit Assistance Programs** (49 U.S.C. 5311(b)(2)) funds are allocated to the state for transit research, technical assistance, training, and related support services to benefit Rural Transportation Providers. The state directly administers the program to provide training and technical support to those providers receiving Section 5311 funds.

**State Planning and Research** (49 U.S.C. 5313) funds are allocated to the state and used to perform statewide transit planning.

**Statewide Administration** (49 U.S.C. 5310 and 5311): The ITD Division of Public Transportation reserves funding to provide program administration and fulfill oversight responsibilities.

**Urbanized Area Formula Program** (49 U.S.C. 5307) funds are allocated by statutory formula directly to small urbanized areas (pop. of 50,000+; currently Coeur d'Alene, Nampa, Lewiston, Pocatello, and Idaho Falls). Funds may be used for operations, capital, and planning to provide public transportation services to the urbanized area. Funds available in the large urbanized areas (pop. of 200,000+; currently Boise) may not be used for operations.

## **FEDERAL AVIATION ADMINISTRATION**

The Federal Aviation Administration (FAA) provides grant funds to 41 of Idaho's 120 public-use airports and the Idaho Division of Aeronautics for statewide planning. These funds are administered and distributed, for the most part, by the FAA with only advisory input from the State of Idaho. The FAA funds are passed directly to the recipient and do not pass through the Idaho Transportation Department. All funds are available through the Airport Improvement Program (AIP) and are distributed to airports based upon their type and level of activity. The FAA currently provides 95%

of eligible project funds for airfield and support facilities and a smaller percentage for passenger-terminal facilities. The local airport and the State of Idaho are responsible to provide the remaining project match (5% match required). FAA funds are available to Idaho airports in two categories, generally by airport function:

- (1) Primary-service airports have regularly scheduled air service and enplane over 10,000 passengers annually (7 Idaho sites). These airports receive an annual passenger enplanement entitlement and are eligible for discretionary funds.
- (2) General-aviation airports provide service for small aircraft (34 Idaho sites). These airports and the State of Idaho receive funds from an annual state apportionment and occasionally are eligible for discretionary funds. A portion of these funds is identified annually as a nonprimary entitlement to select airports based upon the airport's development needs.

## **IDAHO AIRPORT AID PROGRAM (STATE FUNDS)**

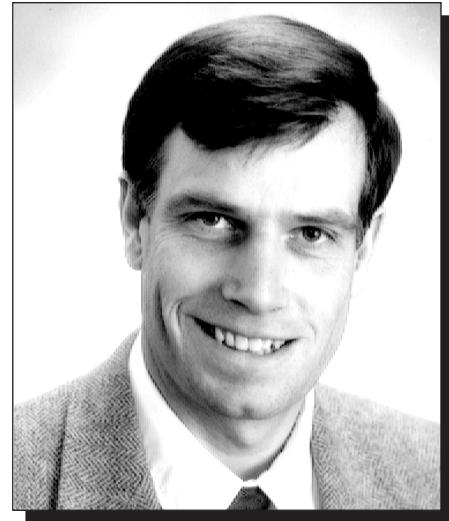

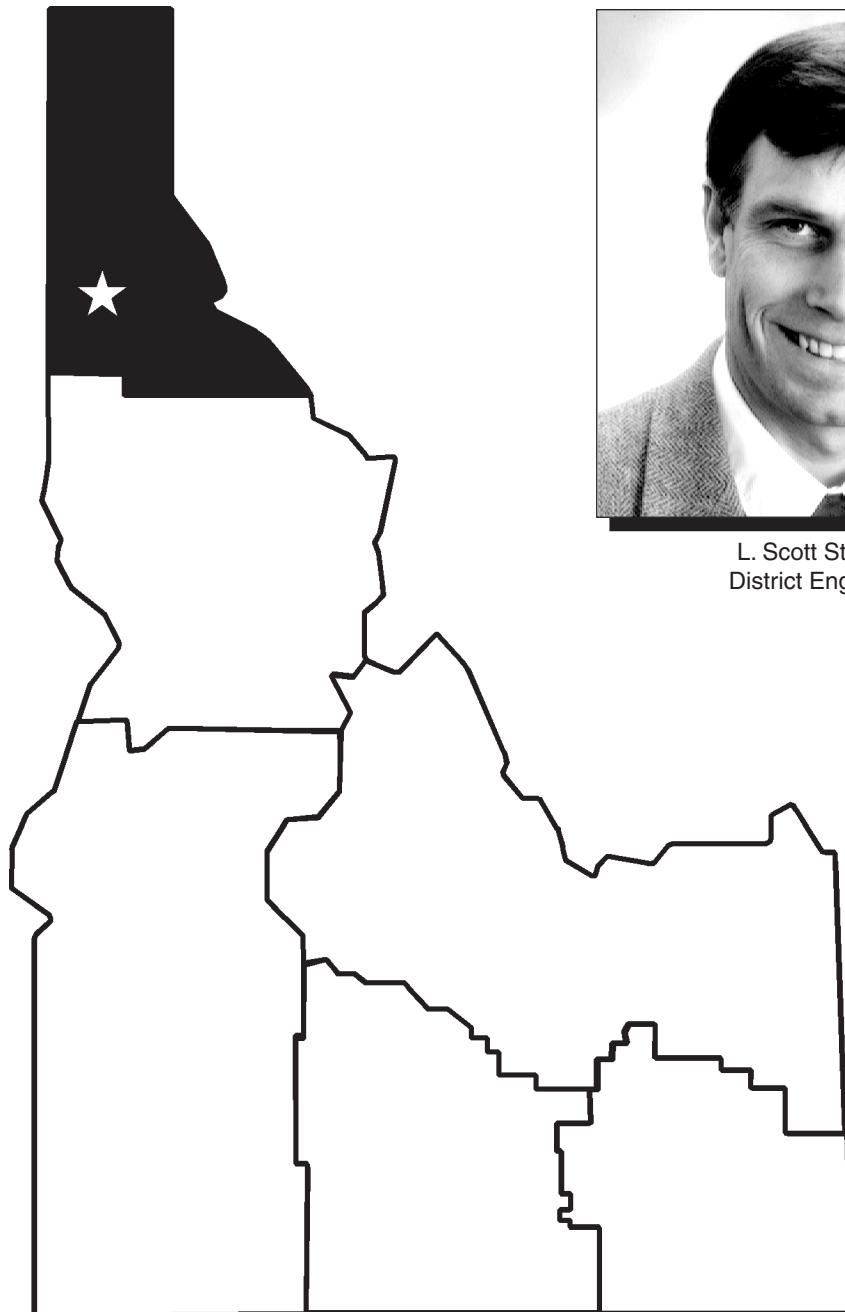

**The Idaho Airport Aid Program (IAAP)** is a state-funded grant program that is administered by ITD's Division of Aeronautics. The IAAP provides grant funds to 71 of Idaho's 120 public-use airports. This program can be used to assist local governments with matching the federal funds or for airport improvements not eligible for federal assistance. The State IAAP funds are available to Idaho airports in three categories, generally by airport function:

- (1) Primary service airports receive a lump sum annual grant based upon the number of passengers enplaned annually. These funds are a 50%-50% match for eligible airport improvements, without regard to the level of FAA project funding.
- (2) General aviation airports that receive FAA-AIP funds are automatically eligible to receive IAAP funds to assist with the 5% match required of the airport sponsor. These grants provide up to 50% of the local match. These matching funds help insure that the available AIP funds will be used when available.
- (3) General aviation airports that are not eligible to receive federal funds are eligible to receive IAAP funds to assist with airport planning, development, and maintenance projects. The percent of match varies from 50% to 90% of the project costs based upon a statutory formula indexed to the community's population. Small rural airports receive a greater match of the project costs than the larger, more populated communities.

## **STATE FUNDS**

State-funded projects have no federal-aid participation and are primarily used to fund construction and maintenance on state highways.

## Coeur d'Alene Indian Reservation

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

# KOOTENAI METROPOLITAN PLANNING ORGANIZATION FY 2005 - 2009 PROGRAM

## Proposed Projects for Public Comment

### Legend

- Projects Recommended for Inclusion
- Projects Nominated but not Funded
- 9524 Bicycle / Pedestrian Projects
- 8302 Highway Projects

### Other Projects

Recommended  
For Inclusion

(H928)

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

### District Three Project List

## PROPOSED PROJECTS RECOMMENDED FOR INCLUSION

in the FY 2005 - 2009 STIP

## COMMENTS

The Idaho Transportation Board is seeking comments on proposed projects for inclusion in the *FY 2005 – 2009 Statewide Transportation Improvement Program*.

**THE FOLLOWING COMMENTS ARE SUBMITTED BY:**

Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
City, State, & Zip Code: \_\_\_\_\_

Please reference the KEY number(s) found on the map or the project description list.

Comments: \_\_\_\_\_

Would you like a written response? Yes      No

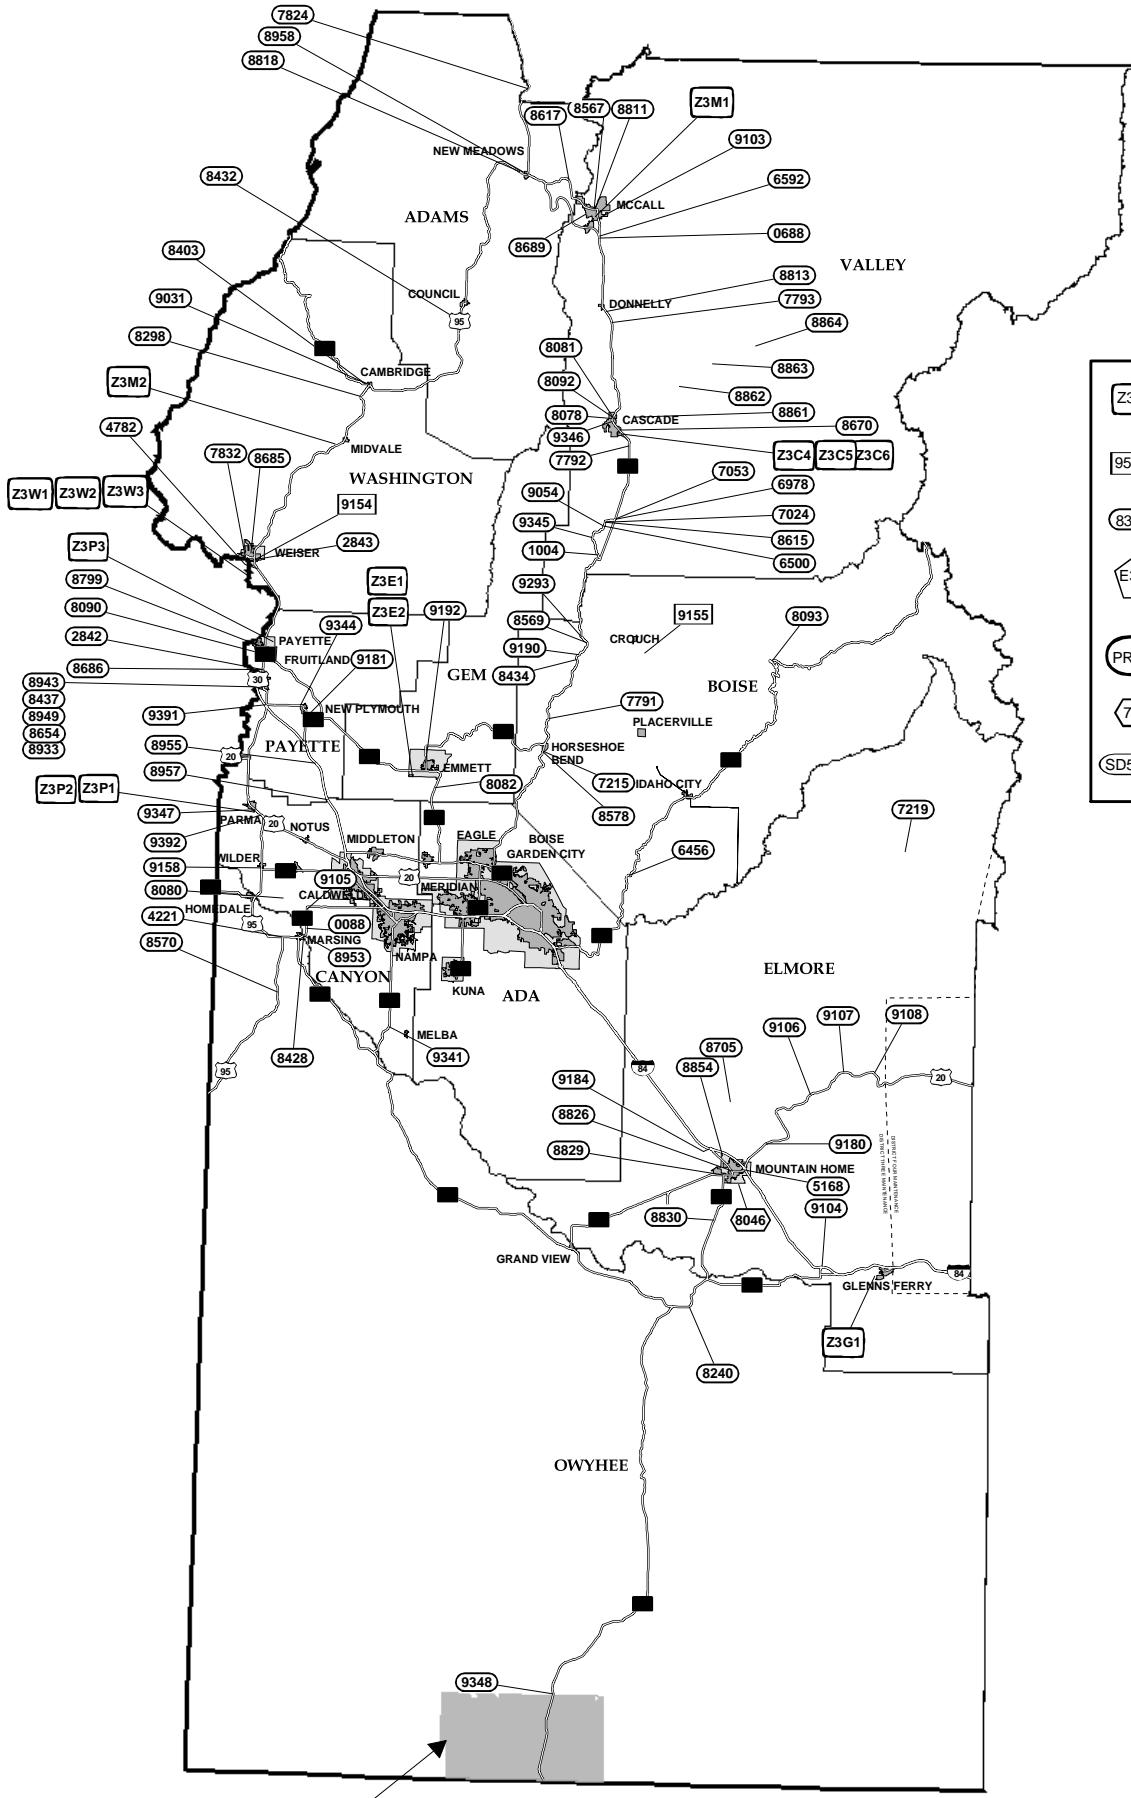

**Please Return Comments by August 4 to:**

Sue Sullivan, Senior Transportation Planner  
Idaho Transportation Department, District 3  
P. O. Box 8028  
Boise, ID 83707-2028

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

## **DISTRICT FIVE FY 2005 - 2009 PROGRAM**

# **Proposed Projects for Public Comment**

## Legend

- Projects Recommended for Inclusion
  - - - Projects Nominated but not Funded

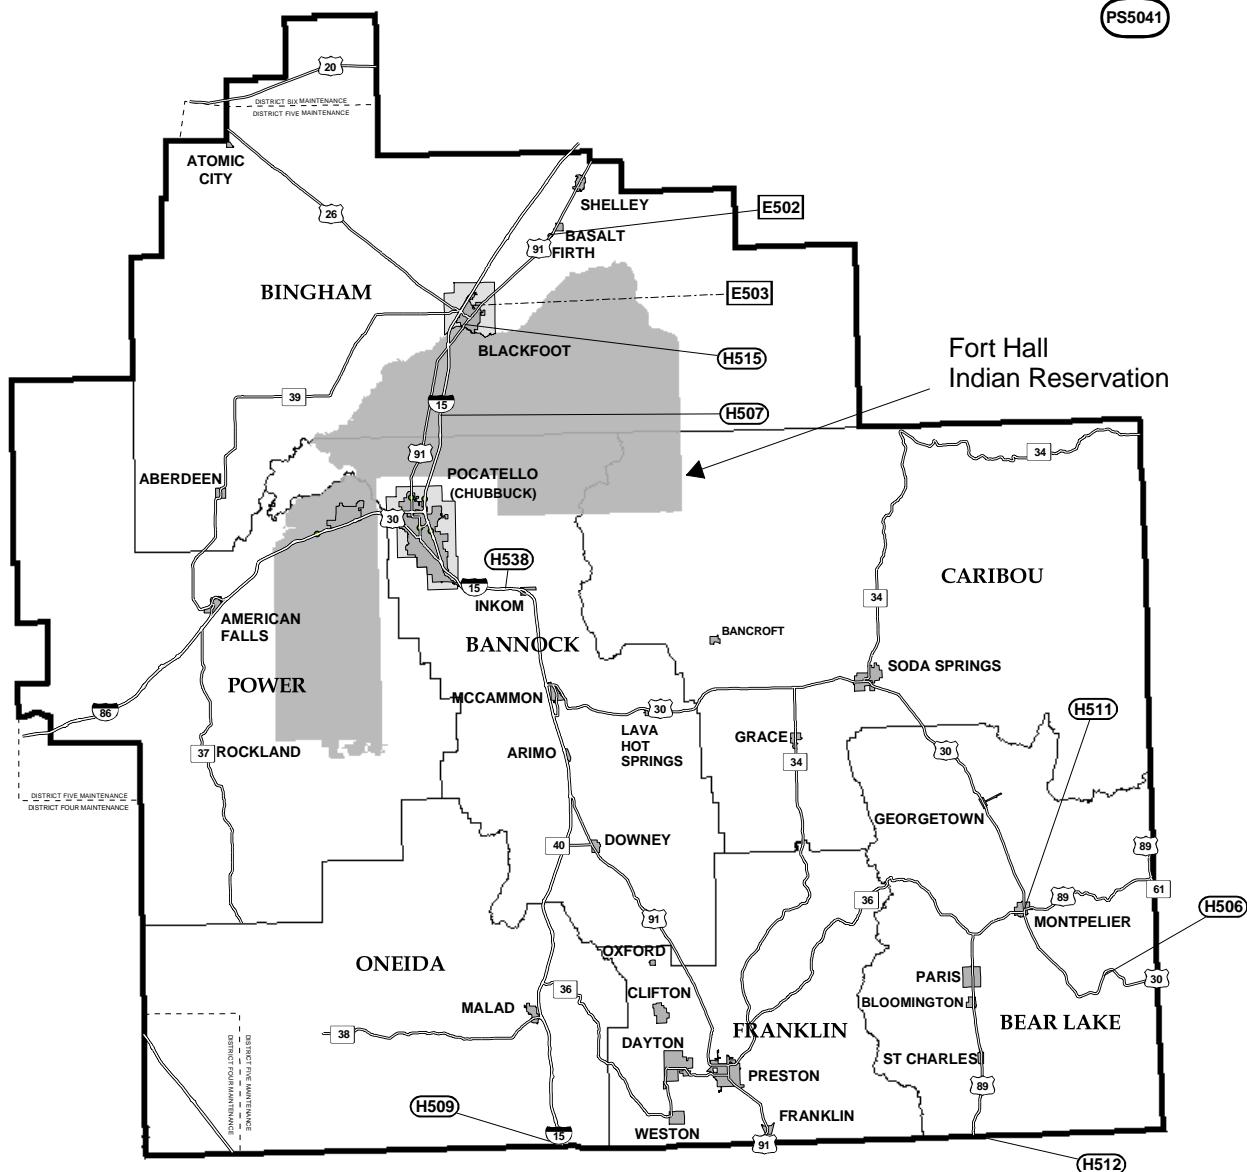

9153 Bicycle / Pedestrian Projects

8852 Highway Projects

PR2035 Public Transit Projects

## Other Projects

Recommended For Inclusion	Nominated but not Funded
(H513)	(R-501)
(H535)	(R-502)
(PR5041)	(R-503)
(PS5041)	(R-504)
	(R-505)

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

## District Five Project List

### PROPOSED PROJECTS RECOMMENDED FOR INCLUSION

in the FY 2005 - 2009 STIP

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.

## COMMENTS

The Idaho Transportation Board is seeking comments on proposed projects for inclusion in the *FY 2005 – 2009 Statewide Transportation Improvement Program*.

**THE FOLLOWING COMMENTS ARE SUBMITTED BY:**

Name: \_\_\_\_\_  
Address: \_\_\_\_\_  
City, State, & Zip Code: \_\_\_\_\_

Please reference the KEY number(s) found on the map or the project description list.

Comments: \_\_\_\_\_

Would you like a written response? Yes      No

## **Please Return Comments by August 4 to:**

Lance Holmstrom, Senior Transportation Planner  
Idaho Transportation Department, District 6  
PO Box 97  
Rigby, ID 83442-0097

Phone: (208) 745-5608; Fax: (208) 745-8735; E-mail: [lholmstr@itd.state.id.us](mailto:lholmstr@itd.state.id.us)

The Idaho Transportation Board is seeking public comment on the draft FY 2005 - 2009 Statewide Transportation improvement Program (STIP). The public comment period is July 6 to August 4, 2004. Blue comment sheets are provided throughout this document. The comment sheets may be mailed, faxed, submitted at any scheduled STIP public involvement activity, or e-mailed by accessing the draft document and comment sheets at [www.itd.idaho.gov/planning/reports/category.htm](http://www.itd.idaho.gov/planning/reports/category.htm). You can obtain information on scheduled STIP public-involvement activities from the contact person listed at the bottom of each comment sheet. A map is provided showing the location of PROPOSED projects. A separate map shows the projects that were in last year's FY 2004 - 2008 board-approved STIP and still remain in the program. "KEY" numbers link each project on the maps to the project information lists. The "FISCAL YEAR" (5th column) is the project's programmed construction year. The abbreviation "PREL" stands for preliminary development which allows the department to schedule preliminary development costs such as environmental studies and right-of-way acquisition. The "PREL" designation will be changed to a specific construction year as funding becomes available. Your review, comments, and participation are appreciated.
